SHIPPED SEMEN INFORMATION

Stallion Availability:

All stallions except Cedar are available by fresh cooled semen. Cedar is available by frozen only.

Every effort will be made to supply semen when needed. However, please check our show calendar or directly with the farm as show stallions will not be available during shows.

When on the farm, stallions are available for collection every day.

Collection Requests:

To insure the best possibility for success, please notify Maggie's Menagerie on the first day of heat during the breeding cycle. Give an approximate date of collection at that time.

Preferred date of request for shipment is the day before collection and shipping is required. Every effort will be made to ship with day of requests if circumstances allow. Requests made after 10 am for day of shipments will incur an extra fee.

Shipping is by Fed Ex only. No airline shipments are available.

No next heat shipments will be made until the equitainer has been returned to Maggie's Menagerie.

The completed SHIPPING INFORMATION FORM on page 2 must be submitted to Maggie's Menagerie before semen will be shipped.

Collection and Shipping Costs:

A \$350.00 container deposit is required before shipment.

The first two collections are included in the stud fee.
Stallion service auction breedings do not include free collections.

Subsequent collections are \$200.00 per collection.

Requests for same day collection after 10 am incur an extra \$50.00 fee.

Fed Ex shipping costs are passed on to mare owner for each shipment.

Contact Maggie's Menagerie directly for costs for shipping frozen semen.
